## Materials:

1. Magazines, wrapping paper or newspaper with images. Have fun experimenting with different types of paper!
2. Clear packing tape.
3. Scissors.
4. Glue stick.
5. Bowl/sink of water.

## How To:

1. Select an image you would like to use.
2. Cut the clear packing tape a little longer than the image you are going to cover
3. Place tape over the image you want.
4. Cut out the image.
5. Place image in water for 5 mins.
6. Take image out of water and rub off paper from backside of tape.
7. Some of the ink will rub off too, but that is ok. Just make sure not to rub too hard.
8. Allow image to dry.
9. When you have chosen a place to apply image (ATC card, journal, altered item, etc.). Using a glue stick apply to back of image, and adhere to item of choice.

The possibilities are endless! Now you will really have a hard time throwing out those magazines!
